

Frequently Asked Questions

1. Is registration open?

Yes! Registration is now open!

2. Is there a registration fee?

Yes. There is a small registration fee to cover expenses. The student fee is \$15 and the adult fee is \$20.

3. Who do I contact if I have questions?

Please contact Mary Hassler (m.hassler@comcast.net), she will answer your specific questions regarding the conference, attendance, cancellations, and concerns you may have.

4. What type of workshops are held?

Each EYH conference features hands-on activities. These are the "bread and butter" of every Expanding Your Horizons event. At EYH conferences girls participate in fun and challenging hands-on math, science and engineering activities led by women mathematicians, scientists and engineers.

Through these important hands-on workshops, young women learn that studying math and science can be fun! They participate in fun experiments and learn about the importance of studying as much math as possible in high school. By using local volunteers to lead workshops, girls meet with mathematicians, engineers and scientists who live and work in their own communities, who serve as role models at the conference, and who may serve as possible mentors in the future.

5. How do I register for the conference?

We accept pre-registration online via the "Registration" link on the upper left side of this page. You will enter the student or adult information, and get a release form. The Release Form and Payment are both required to complete your registration.
